It is a harmless rheumatism liniment which never disappears and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles, and bones; stops sciatica, lumbago, backache, neuralgia and reduces swelling.

Limber up! Get a small trial bottle of old-time, honest "St. Jacobs Liniment" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.—Advt.

## DRASTIC ORDERS START CONGESTED FREIGHT MOVING

Box Cars Rushed West and Eastern Lines Begin to Clear Tangle.

Relieved of the pressing necessities of the coal crisis for the first time since Government control of the railroads became effective, Assistant Director A. H. Smith, in charge of practical operations, to-day reached out to other sections of the country with drastic orders to clear out congestion and line up the companies into a single organization for national service.

Here are the principal moves of the day:

To hurry food supplies to our Euro-

pean Allies, all leading trunk lines were ordered to send box cars immediately west of Chicago and St. Louis to move the wheat crop eastward for export. High every available box car to Western lines, was the order to Eastern lines, and drastically restrict loading of eastbound freight excepting with foodstuffs was the order to Western roads.

All railroad Presidents were advised to consider closing up such ticket offices as can be spared to conserve money, heat and light in view of the restricted passenger travel.

Pooling of ocean steamship tonnage similar to pooling of railway equipment is being arranged. First to comply are the six South American lines, which have agreed to take freight for the River Plate on the first boat, irrespective of what line carries it.

Increased charge of demurrage of \$10 a day for shippers who hold cars was put into effect and radical clearing out of stalled cars ordered.

The latest count of export freight held around New York harbor shows 25,000 car loads, with approximately 10,000 more for Government account in warehouses or on piers. A general housecleaning of clogged piers and warehouses was ordered.

The worst congested point in the United States, after New York har-

bor, is Pittsburgh. Director Smith tackled it to-day, and found 16,000 cars on the Pennsylvania lines alone, endeavoring to get through that gateway east and west. In a few hours things began to move through, in combination of moderating weather and tremendous efforts of railway employees.

At noon Mr. Smith was able to sum up the general situation as follows: Jersey Central reports situation rapidly improving. Has put on additional power.

Baltimore and Ohio moved yesterday 20,000 cars, which is about 80 per cent. normal.

New York Central movement improving with moderation of weather. New England situation rapidly approaching normal: 2,500 cars on hand.
